stocks, the general list, with few noteworthy exceptions averaging losses of 2 to 3 points.

Some specialties were lower at their minimums by 2 to 4 points. These recessions were partly retrieved in the last hour.

Total sales of stock amounted to 610,000 shares. Of this turn over a very large proportion was again contributed by the Mercantile Mariner, Crucible Steel, United States Industrial Alcohol, Mexican Petroleum, American Zinc, Baldwin Locomotive, American Locomotive and Goodrich. United States Smelting made a new high record at 73 1/2 and zinc also scored a new maximum at 92 1/2.

United States Steel fared better on the whole than other issues of the same class, yielding only 1 point to 8 1/2. Bethlehem Steel made an extreme decline of 29 to 46 1/2 and rallied to 47 1/2. Motor shares with Industrial Alcohol and the Petroleum proved most susceptible to pressure.

Prominent rails were lower by a point for New York Central, Canadian Pacific, Union and Southern Pacific, New Haven and Western Maryland, while Reading and Norfolk and Western were slightly more heavy.

A further decline in the rates of exchange on Paris, demand bills falling to \$6.01 1/2, was again the foremost feature of the international credit markets. Bonds were heavy. Total sales par value, \$4,135,000. United States bonds unchanged on call.

due to the government crop report. The market closed heavy, 1/4 to 1 1/2 cents net lower, with May at \$1.17 1/2 and July at \$1.15 1/2. Corn finished unchanged to 1/8 1/2 down, oats off 1/8 1/2 to 1/4 1/2, and provisions varying from 1/2 decline to a like advance.

Setbacks in the price of wheat followed each other with increasing force. Gossip of the lateness of the season in the spring wheat belt seemed to have but little effect as a prop to the market.

Hints of export business tended to make corn average higher in prices and so too did unfavorable weather. Oats were governed almost entirely by the action of other grain.

Commission house buying of hard rallied provisions. At first the market had been weak owing to lower prices on hogs. Shipments of hard and meats were liberal as compared with a year ago.
